Delivery is based within 1 hour of New Liskeard. Additional charges will apply for further distances

Minimum cost for delivery of any material with any truck is \$ 200.00 with tax included

Minimum \$40.00 per pick up/trailer load. Loaded with machine.

Yards -> Tonnes, multiply 1.36

M3 -> Yards, multiply 1.4

M3 -> Tonnes, multiply 1.78

Minimum & Maximum in Triaxle

Topsoil: Min. 12 Yards Max. 25 yards

Sand & Gravel: Min. 12 tonnes Max. 22 Tonnes

Maximum in 1 tonne

Topsoil: 8 yards

Sand & Gravel: 4.5 yards / 6 tonnes

1 Ton Maximum

Sand- 2.5 yds/3.40 tonnes

Gravel/Stone- 2 yds/2.72 tonnes

Topsoil- 6 yds

Round Pool

Radius- which is $\frac{1}{2}$ your diameter

Radius x Radius x π (3.14159) x depth \div 27

* if your pool is 27' wide, and you want 4" of sand under it.

Ex: $13.5 \times 13.5 \times 3.14159 \times .33 \div 27 = 6.99$ yards

Driveway

Length x Width x Depth = _____ \div 27 = _____ yards total

60 x 20 x .16 \div 27 = 7.11 yards (x the conversion 1.2 OR 1.36 depending on aggregate)

<u>Depths</u>	5"= 0.42	10"= 0.83	15"= 1.25	20"= 1.67
1"= 0.08	6"= 0.5	11"= 0.92	16"= 1.33	21"= 1.75
2"= 0.17	7"= 0.58	12"= 1.0	17"= 1.42	22"= 1.83
3"= 0.25	8"= 0.67	13"= 1.08	18"= 1.5	23"= 1.92
4"= 0.33	9"= 0.75	14"= 1.17	19"= 1.58	24"= 2

*** Once you figure out the yd total, add 20% to get the grand total yards, we do this to cover the compaction of material in the ground.

Ex: for the driveway we got 8 yards (8 + 20% = 9.6 \rightarrow 10 yards)

2025 Extra hourly Charge from Our Pits & Quarry

This is charged on top of our delivered price for material

Taxes Included		1 Tonne	Triaxle
Hourly Rate		\$ 79.83	\$ 146.90
